

HowTo - Add a word to Ignite's spellcheck

INFORMATION

Ignite pulls its spellcheck data directly from the server. There are two plain text files that contain the known words. If you need to add or correct a word in the spellcheck dictionary, please do the following:

1. Browse to

<InstallDir>\CCM\Website\CCMWa\JavaScriptSpellCheck\dictionaries\custom.txt .

2. Open it in a text editor.

3. Add or edit the correct spelling of a word. This file is formatted with one word per line.

4. Save and close the file.

5. Repeat steps 2-4 for the dictionary file found in

<InstallDir>\CCM\Website\MCCWa\JavaScriptSpellCheck\dictionaries\custom.txt .

APPLIES TO

7.0 and newer

Keywords: spellcheck custom dictionary edit add
