

KB78390 - Custom report fails if time parameter is over 6 months.

PROBLEM

Custom report fails if time parameter is over 6 months, otherwise generates successfully.

INSTALLATION

NOTE: This hotfix was implemented for a specific customer. If you were not directed here by prairieFyre support, or Mitel do not use this script.

1. Download the attached **5.8.0.9.SQL** file.
2. Ensure that SQL Management Studio is installed (Official Download site).
3. Double click the 5.8.0.9.SQL file to launch it in management studio.
4. Click the **Execute** button.

APPLIES TO

CCM 5.7 SP1 through 6.0

Keywords: KB78390 Custom report fail 6 months
