

HowTo: View list of CCC Profiles, and who created them

INFORMATION

You can view a list of CCC Profiles, and who created them (pulled from the Employee list) by running the attached script in SQL Management Studio.

1. Ensure you have **SQL Management Studio** installed, and the permissions to connect to your CCMDData database.
2. Download the attached **Script-Profiles.ZIP** and unzip the **Script-Profiles.SQL** file within.
3. Double click the **Script-Profiles.SQL** file. This will open SQL Management Studio to the script screen.
4. Click the **Execute (!)** button at the top.

NOTE: If you are looking for a specific profile, after Step 3 you can add the following line to the bottom of the script. Substitute the name of the profile where the example shows **####** ensuring you keep the single quotes around the profile name. Then press the **Execute (!)** button.

WHERE tblProfile.Name = '####'
