

## HotFix KB94051 - Poor performance after moving to Virtual Environment

---

### PROBLEM

After moving server to Virtual environment, server performance became very poor.

### RESOLUTION

This hot fix is to be applied on top of version 6.0.1.1

Download the attached **KB94051.EXE** file to the Enterprise Server.  
Double-click the **KB94051.EXE** file and follow the on-screen prompts.

**NOTE:** Installing this hot fix will stop all prairieFyre services. To avoid service interruption we recommend installing this patch after hours, or during a scheduled maintenance window.

### APPLIES TO

6.0.1.1

**Keywords:** virtual environment VM poor performance 94051 KB94051 HotFix
