

HotFix KB499087 - Telephone System Settings Synchronization taking excessive amount of time to complete

PROBLEM

A synchronization with the MiVoice Business would stall for an extended period at 95% completion.

RESOLUTION

NOTE: A secondary root cause was discovered. This Hotfix has been replaced by KB503901 which includes fixes for both root causes.

APPLIES TO

MiCC 9.2.1.0

Keywords: Hotfix telephone system synchronization
