

KB141: Website Inbox Error using French Language

PROBLEM:

When trying to navigate to through the Report section of the webinterface, if the language is set to French, in version 5.1 SP1 and error is displayed instead of the reports list.

CAUSE:

This is due to missing strings when switching to French.

RESOLUTION:

Install hotfix KB141 only if you are running 5.1 SP1 or update to the latest service pack. Install the hotfix on the server.

Fix Location:

You can download the hotfix here: KB141
